- Post/ Polio Syndrome
- Migraines

Please record any other information that may be helpful:

Please indicate your areas of pain or discomfort.

If necessary, notes may be made beside the figure.

WHAT TO EXPECT AT YOUR FIRST APPOINTMENT:

After filling out the Medical History Form, you will be escorted into the clinic room. The therapist will then do a mandatory 20-30 minute assessment with you. This assessment enables the therapist to localize where the problems exist, identify any contributing factors that may have led to the condition, how your activities of daily living have been affected, and also to formulate an effective treatment plan. Massage Therapists are not allowed to diagnose a client, but we are allowed to make clinical impressions. After the assessment the therapist will instruct you how to get on the table. During the massage, your body is always draped, except for the area that the therapist will be working on. He/she will inform you of the specific draping for that body region prior to undraping it. After the massage, the therapist will instruct you on how to get off the table. After you get dressed, the therapist may proceed with a short reassessment and home care. He/she will leave the room when you are undressing or getting dressed, unless assistance is needed. On following visits, a short consultation will be done to see if there are any changes since the last visit.

Cancellation Policy:

Please provide 24 hours notice for any changes to your appointment time. For missed appointments or late cancellations a \$45 fee may be charged to you personally (insurance companies will not pay for missed appointments).

I give *Blue Horizon Massage* permission to contact me by TEXT, PHONE, and EMAIL to arrange appointments and for periodic marketing.
